

SAFETY DATA SHEET

according to Regulation (EC) No. 1907/2006 (REACH) Article 31, Annex II as amended

n-Butyraldehyde***

10450

Version / Revision

3

Revision Date

15-Apr-2026

Supersedes Version

2.00***

Issuing date

15-Apr-2026

SECTION 1: Identification of the substance / mixture and of the company / undertaking

1.1. Product identifier

Identification of the substance/preparation

n-Butyraldehyde***

CAS-No

123-72-8***

EC No.

204-646-6***

Registration number (REACH)

01-2119488889-07***

1.2. Relevant identified uses of the substance or mixture and uses advised against

Identified uses

Transported isolated intermediate (1907/2006)***

Uses advised against

None

1.3. Details of the supplier of the safety data sheet

Company/Undertaking Identification

OXEA GmbH
Rheinpromenade 4A
D-40789 Monheim
Germany***

Product Information

Product Stewardship
FAX: +49 (0)208 693 2053
email: sc.psq@oxea.com***

1.4. Emergency telephone number

Emergency telephone number +44 (0) 1235 239 670 (UK)
available 24/7***

National emergency telephone number National Poisons Information Centre
+353 (0)1 809 2166
available to the public 8 am - 10 pm
+353 (0)1 809 2566
available 24/7 for medical professionals

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

This substance is classified based on Directive 1272/2008/EC and its amendments (CLP Regulation)***

Flammable liquid Category 2, H225***

Serious eye damage/eye irritation Category 2, H319***

Additional information

For full text of Hazard- and EU Hazard-statements see SECTION 16.***

2.2. Label elements

Labelling according to Regulation 1272/2008/EC and its amendments (CLP Regulation).***

SAFETY DATA SHEET

according to Regulation (EC) No. 1907/2006 (REACH) Article 31, Annex II as amended

n-Butyraldehyde***
10450

Version / Revision 3

Hazard pictograms

Signal word

Danger***

Hazard statements

H225: Highly flammable liquid and vapour.
H319: Causes serious eye irritation.***

Precautionary statements

P210: Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.
P233: Keep container tightly closed.
P280: Wear protective gloves/protective clothing/eye protection/face protection.
P303 + P361 + P353: IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water or shower.
P305 + P351 + P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P313: Get medical advice/attention.
P403 + P235: Store in a well ventilated place. Keep cool.***

2.3. Other hazards

Vapour is heavier than air and can travel considerable distance to a source of ignition and flashback
Vapours may form explosive mixture with air
Potential for exothermic hazard
Risk of receptacle bursting
Auto ignition on large surfaces
Components of the product may be absorbed into the body by inhalation and ingestion***

PBT and vPvB assessment

This substance is not considered to be persistent, bioaccumulating nor toxic (PBT), nor very persistent nor very bioaccumulating (vPvB)***

Endocrine disrupting assessments

The substance is not listed on the candidate list according to Art. 59(1), REACH.
The substance was not assessed as having endocrine disrupting properties according to regulation 2017/2100/EU or 2018/605/EU.

SECTION 3: Composition / information on ingredients

3.1. Substances

Component	CAS-No	REACH-No	1272/2008/EC	Concentration (%)
Butyraldehyde***	123-72-8	01-2119488889-07** *	Flam. Liq. 2; H225 Eye Irrit. 2; H319***	> 98,5

For full text of Hazard- and EU Hazard-statements see SECTION 16.***

SECTION 4: First aid measures

4.1. Description of first aid measures

SAFETY DATA SHEET

according to Regulation (EC) No. 1907/2006 (REACH) Article 31, Annex II as amended

n-Butyraldehyde***
10450

Version / Revision 3

Inhalation

Keep at rest. Aerate with fresh air. When symptoms persist or in all cases of doubt seek medical advice.***

Skin

Wash off immediately with soap and plenty of water. When symptoms persist or in all cases of doubt seek medical advice.***

Eyes

Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Remove contact lenses. Obtain medical attention.***

Ingestion

Do not induce vomiting without medical advice. Call a physician immediately.***

4.2. Most important symptoms and effects, both acute and delayed

Main symptoms

shortness of breath.***

Special hazard

Lung oedema.***

4.3. Indication of any immediate medical attention and special treatment needed

General advice

Remove contaminated, soaked clothing immediately and dispose of safely. First aider needs to protect himself.***

Treat symptomatically. In case of lung irritation, first treatment with cortisone spray. Control of circulatory system. Control of kidney function. Control of electrolyte metabolism.***

SECTION 5: Firefighting measures

5.1. Extinguishing media

Suitable extinguishing media

alcohol-resistant foam, dry chemical, carbon dioxide (CO₂), water spray***

Unsuitable Extinguishing Media

Do not use a solid water stream as it may scatter and spread fire.***

5.2. Special hazards arising from the substance or mixture

Under conditions giving incomplete combustion, hazardous gases produced may consist of:

carbon monoxide (CO)

carbon dioxide (CO₂)

Combustion gases of organic materials must in principle be graded as inhalation poisons

Vapour is heavier than air and can travel considerable distance to a source of ignition and flashback

Vapours may form explosive mixture with air

Risk of receptacle bursting***

5.3. Advice for firefighters

Special protective equipment for firefighters

Fire fighter protection should include a self-contained breathing apparatus (NIOSH-approved or EN 133) and full fire-fighting turn out gear.***

Precautions for firefighting

SAFETY DATA SHEET

according to Regulation (EC) No. 1907/2006 (REACH) Article 31, Annex II as amended

n-Butyraldehyde***
10450

Version / Revision 3

Cool containers / tanks with water spray. Dike and collect water used to fight fire. Keep people away from and upwind of fire.***

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

For non-emergency personnel: For personal protective equipment see section 8. Avoid contact with skin and eyes. Avoid breathing vapors or mists. Keep people away from and upwind of spill/leak. Ensure adequate ventilation, especially in confined areas. Keep away from heat and sources of ignition.
For emergency responders: Personal protection see section 8.***

6.2. Environmental precautions

Prevent further leakage or spillage. Do not discharge product into the aquatic environment without pretreatment (biological treatment plant).***

6.3. Methods and material for containment and cleaning up

Methods for containment

Stop the flow of material, if possible without risk. Dike spilled material, where this is possible.***

Methods for cleaning up

Soak up with inert absorbent material. DO NOT use combustible materials such as sawdust. Keep in suitable, closed containers for disposal. If liquid has been spilt in large quantities clean up promptly by scoop or vacuum. Take necessary action to avoid static electricity discharge (which might cause ignition of organic vapours).***

6.4. Reference to other sections

For personal protective equipment see section 8.

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Advice on safe handling

Avoid contact with skin, eyes and clothing. Wash hands before breaks and immediately after handling the product. Provide sufficient air exchange and/or exhaust in work rooms. Refill and handle product only in closed system.***

Hygiene measures

When using, do not eat, drink or smoke. Take off all contaminated clothing immediately. Wash hands before breaks and immediately after handling the product.***

Incompatible products

acids and bases
amines
oxidizing agents***

7.2. Conditions for safe storage, including any incompatibilities

Advice on protection against fire and explosion

Keep away from sources of ignition - No smoking. Take necessary action to avoid static electricity discharge (which might cause ignition of organic vapours). In case of fire, emergency cooling with water spray should be available. Ground and bond containers when transferring material. Vapour is heavier than air and can travel considerable distance to a source of ignition and flashback. Vapours may form explosive mixture with air.***

SAFETY DATA SHEET

according to Regulation (EC) No. 1907/2006 (REACH) Article 31, Annex II as amended

n-Butyraldehyde***
10450

Version / Revision 3

Technical measures/Storage conditions

Keep containers tightly closed in a cool, well-ventilated place. Handle and open container with care. Handle under nitrogen, protect from moisture. Store at temperatures not exceeding 30 °C/ 86 °F.***

Suitable material

stainless steel, aluminium***

Unsuitable material

mild steel***

Temperature class

T4***

7.3. Specific end use(s)

Transported isolated intermediate (1907/2006)***

SECTION 8: Exposure controls / personal protection

8.1. Control parameters

Exposure limits European Union

No exposure limits established***

Exposure limits Ireland

No exposure limits established.***

DNEL & PNEC

This substance is registered as intermediate under strictly controlled conditions.***

8.2. Exposure controls

Special adaptations (REACH)

Not applicable.***

Appropriate Engineering controls

General or dilution ventilation is frequently insufficient as the sole means of controlling employee exposure. Local ventilation is usually preferred. Explosion-proof equipment (for example fans, switches, and grounded ducts) should be used in mechanical ventilation systems.***

Personal protective equipment

General industrial hygiene practice

Avoid contact with skin, eyes and clothing. Do not breathe vapours or spray mist. Ensure that eyewash stations and safety showers are close to the workstation location.***

Hygiene measures

When using, do not eat, drink or smoke. Take off all contaminated clothing immediately. Wash hands before breaks and immediately after handling the product.***

Eye protection

Tightly fitting safety goggles. In addition to goggles, wear a face shield if there is a reasonable chance for splash

SAFETY DATA SHEET

according to Regulation (EC) No. 1907/2006 (REACH) Article 31, Annex II as amended

n-Butyraldehyde***
10450

Version / Revision 3

to the face.***

Equipment should conform to EN 166***

Hand protection

Wear protective gloves. Recommendations are listed below. Other protective material may be used, depending on the situation, if adequate degradation and permeation data is available. If other chemicals are used in conjunction with this chemical, material selection should be based on protection for all chemicals present.***

Suitable material	butyl-rubber***
Evaluation	according to EN 374: level 3***
Glove thickness	approx 0,3 mm***
Break through time	< 60 min***
Suitable material	polyvinylchloride***
Evaluation	Information derived from practical experience***
Glove thickness	approx 0.8 mm***

Skin and body protection

Impervious clothing. Wear face-shield and protective suit for abnormal processing problems.***

Respiratory protection

Respirator with A filter. Full mask with above mentioned filter according to producers using requirements or self-contained breathing apparatus. Equipment should conform to EN 136 or EN 140 and EN 143.***

Environmental exposure controls

If possible use in closed systems. If leakage can not be prevented, the substance needs to be suck off at the emersion point, if possible without danger. Observe the exposure limits, clean exhaust air if needed. If recycling is not practicable, dispose of in compliance with local regulations. Inform the responsible authorities in case of leakage into the atmosphere, or of entry into waterways, soil or drains.***

Additional advice

Further details on substance data can be found in the registration dossier under the following link:
<http://echa.europa.eu/information-on-chemicals/registered-substances>.***

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Physical state	liquid***
Colour	colourless***
Odour	pungent***
Odour threshold	No data available
Melting point/freezing point	< -20 °C @ 1013 hPa***
Boiling point or initial boiling point and boiling range	75 °C @ 1013 hPa***
Method	OECD 103***
Flammability	Ignitable
Lower explosion limit	1,7 Vol %***
Upper explosion limit	12,5 Vol %***
Flash point	-6,7 °C @ 1013 hPa***
Method	closed cup, ASTM D-93***
Autoignition temperature	190 °C @ 1013 hPa***
Method	ASTM E 659***
Decomposition temperature	No data available
pH	3 (50 g/l in water @ 20 °C (68 °F)) OECD 105***
Kinematic Viscosity	0,531 mm ² /s @ 20 °C***
Method	ISO 3219***

9.2. Other information

Explosive properties	Does not apply, substance is not explosive. There are no chemical groups associated with explosive properties
Oxidizing properties	Does not apply, substance is not oxidising. There are no chemical groups associated with oxidizing properties
Molecular weight	72,11***
Molecular formula	C ₄ H ₈ O***
log Koc	0,707 calculated***
Refractive index	1,379 @ 20 °C***
Heat of combustion	2479 kJ/mol @ 25 °C (77 °F)***
Surface tension	70 mN/m (1 g/l @ 20°C (68°F)), OECD 115***
Evaporation rate	7,8 (n-Butyl acetate = 1)***

SECTION 10: Stability and Reactivity

10.1. Reactivity

The reactivity of the product corresponds to the typical reactivity shown by the substance group as described in any text book on organic chemistry.

10.2. Chemical stability

Stable under recommended storage conditions.***

10.3. Possibility of hazardous reactions

Hazardous reactions occur in the presence of acids, base or oxidizing agents. This reaction is exothermic and may create heat. When finely distributed, self-ignition is possible. May form explosive peroxides.***

10.4. Conditions to avoid

Avoid contact with heat, sparks, open flame and static discharge. Avoid any source of ignition.***

10.5. Incompatible materials

bases, amines, acids, oxidizing agents.***

10.6. Hazardous decomposition products

No decomposition if stored and applied as directed.***
